## **FOOTPRINTS365 CHARITY ORGANISATION COVID 19 FUNDING REQUEST FOR COPUTERS & LAPTOPS FOR SCHOOLS LABORATORY PROJECT IN GHANA**

Footprints365 is recognised charity by the Development of Social Welfare Ghana.

As part of the next stage of our developmental project in health, education & supporting the disadvantaged & destitute, we would appreciate your support as we continue to help change the trajectory of the life of the children as well as the most deprived communities within Ghana.

Footprints365 has taken series of projects since 2011 in Ghana. We sit under the broad umbrella of frontline work by making sure that our future generations are not sidelined in our quest to combat the pandemic hence our work to support on line education in our schools. Due to the pandemic, education systems shut down in most of 2020 with limited IT support systems in place in Ghana.

We are providing computers for our next generation in order for them to gain access to online studies whilst their education get disrupted during this perilous time and season. It is Footprints365 vision for 2021 and beyond to support our next generation on line teaching and learning which was missed when the pandemic was at it' highest and education systems were shut down for a whole academic year.

We have currently completed a computer laboratory project at Bokuruwa Kwahu which will serve other communities within 5 miles radius at Kwahu East District. Most children in poorer regions of the world experience poverty as adults due to the systemic lack of education. Hopefully our humble work will support educate our next generation.

**Your kind support in computer donation to aid of the continued project of supporting schools to acquire computer laboratories to build the next generation technological knowledge will be very much appreciated.**

### OUR JOURNEY

My name is Dorothy Gyebi-Ababio, I am the Ambassador and Founder of Footprints365.

Footprints365 is a charity registered in the UK on the 30th April, 2011. The Organisation is dedicated to empowering the next generation through education. We are committed to encouraging and inspiring the young ones into leadership by releasing their potential.

Footprints365 Charity Organisation is run by dedicated volunteers and supported by various Organisations, Footprints365 friends, families and individual philanthropists.

It is our belief that people in all countries should have a regular meal on their plate, a roof over their heads, access to doctors, nurses and medicine, and effective schooling.

The greatest contribution to the most disadvantaged in society is to provide them with love and care as well as worldly skills to make them self-sufficient. It is common place to hear people claim that global population growth is the main reason why so many people remain poor. This growth places pressure on the limited resources of many countries. However other factors are also important; for example, lack of education and poor health in conjunction with limited resources can result in extreme poverty.

In poverty-stricken nations, the young are unable to go to school because their parents simply cannot afford the fees or course materials. Additionally, children are often exploited to provide for their family. In these instances, they are unable to go to school. Most children in poorer regions of the world experience poverty as adults due to the systemic lack of education.

Providing the youth with appropriate educational facilities can help eliminate poverty in the future. Through education these children can realise their potential and utilise their gifts and talents for personal development and the collective advancement of their nation.

We assist and encourage poor communities to be empowered to build a sustainable future based on outstanding education. Proper education amenities have long term implications for the impoverished sections of developing nations. As an organisation, we have undertaken several projects in Ghana and we are currently expanding into other African countries such as Angola.

Our vision is to reach thousands of people in many communities around the world but we will not be able to pursue our efforts without your help. Thank you for your support. We look forward to hear from you soon.
